

“

I support

\$24.5 Million

**funding for
Palliative
Care**

”

Thousands of South Australians who will die this year will miss out on much needed palliative care contributing to unrelieved suffering, poor quality of life, increased burden for family carers and lack of genuine choice in relation to end of life care.

I support increased government funding allocation for palliative care so that all South Australians who will die this year will have the care they need to face their death and die with dignity and comfort.
